

## WATER CONNECTION FEES

**Effective 10-1-25 through 9-30-26**

### WATER SERVICE INSTALLATION FEES:

These fees are for the installation of a new water service for a residential or commercial structure. These fees include all work associated with a new water service (i.e. trenching, mainline tap, service line to meter (up to fifty (50) feet), meter, and roadway repair. New water services are installed by the City Water Department.

Service Size	Service Line, Meter & Installation Fee
1"	\$3,088.47
1 1/2"	\$3,933.90
2"	\$4,553.93

Fees for service size larger than 2" shall be determined by the City Engineer.

### WATER SERVICE PERMIT FEES:

These fees are for new subdivisions and commercial developments. These fees are paid at the time of construction plan review. These water services are installed by the developer's contractor. This fee is for processing the permit.

Service Size	Permit Fee
1"	\$55.35
1 1/2"	\$55.35
2"	\$55.35

Fees for service size larger than 2" shall be determined by the City Engineer.

### WATER METER FEES:

These fees are for the water meter and installation by City staff. Meter fees are assessed at the time of building permit.

Meter Size	Meter & Installation Fee
1"	\$449.28
1 1/2"	\$778.36
2"	\$1,025.20

Fees for service size larger than 2" shall be determined by the City Engineer.

### WATER MAIN TAPPING FEES:

These fees are for taps on live water mains. All taps on live water mains are done by the City Water Department. The developer/owner provides all materials for the tap and connection.

Tap Size	Main Line Tap Fee
